## About Me

As a frontend developer proficient in HTML, CSS, and basic JavaScript, my focus is on creating user-friendly interfaces. I thrive in collaborative environments, eager to both contribute my skills and learn from others. My passion for staying current with industry trends ensures I bring innovation and growth to web development projects, making me a valuable asset to any team.

## Projects

### Attendance using Face Recognition Sysytem

Designed a face recognition-based attendance system using computer vision and Machine learning. Real time face detection and recognition has been put in place for efficient attendance tracking. Utilizing Python's opencv, face recognition, pandas, datetime, numpy modules.

### Portfolio Website

A sleek, responsive portfolio website using HTML, CSS, and JavaScript. It's a testament to my frontend development skills, combining clean design with user-friendliness

### Calculator

A functional calculator using HTML, CSS, and JavaScript, offers a user-friendly interface with responsive design, ensuring seamless usability on various devices.

## Education

### CKMNSS SENIOR SECONDARY SCHOOL

#### Computer Science

March 2018-April 2020  
CBSE

Class XII : 91.4%
